JOURNAL OF MARINE SYSTEMS

Contents Volume 5 1994

Ecology of *Phaeocystis*-dominated ecosystems
C. Lancelot, P. Wassmann and H. Barth 1
The taxonomic identity of the cosmopolitan prymnesiophyte *Phaeocystis*: a morphological and ecophysiological approach
M.E.M. Baumann, C. Lancelot, F.P. Brandini, E. Sakshaug and D.M. John 5
The life cycle of *Phaeocystis* (Prymnesiophyceae): evidence and hypotheses
V. Rousseau, D. Vaulot, R. Casotti, V. Cariou, J. Lenz, J. Gunkel and M. Baumann 23
Dimethyl sulphide and *Phaeocystis*: A review
P.S. Liss, G. Malin, S.M. Turner and P.M. Holligan 41
Microbial degradation of *Phaeocystis* material in the water column
F. Thingstad and G. Billen 55
The trophic significance of *Phaeocystis* blooms
T. Weisse, K. Tande, P. Verity, F. Hansen and W. Gieskes 67
Significance of sedimentation for the termination of *Phaeocystis* blooms
P. Wassmann 81

Guide for authors

Some problems in sub-mesoscale air–sea interaction
E.B. Kraus 101
A complete set of buffer factors for acid/base CO_2 system in seawater
M. Frankignoulle 111
Spatial patterns of phytoplanktonic pigments and primary production in a semi-enclosed periantarctic ecosystem: the Strait of Magellan
V. Saggiomo, A. Goffart, G.C. Carrada and J.H. Hecq 119
A simulation analysis of various biological and physical factors influencing the deep-chlorophyll maximum structure in oligotrophic areas
R.A. Varela, A. Cruzado and J. Tintoré 143
Variability of water masses and of organic production-regeneration systems as related to eutrophic, mesotrophic and oligotrophic conditions in the northeast Atlantic ocean
C. Pierre, A. Vangriesheim and E. Laube-Lenfant 159
Recent dramatic changes in the Black Sea ecosystem: The reason for the sharp decline in Turkish anchovy fisheries
A.E. Kideys 171

Book Review 183

Erratum 185

"Almofront-1" (April–May 1991): an interdisciplinary study of the Almeria–Oran geostrophic front, SW Mediterranean Sea
L. Prieur and A. Sournia 187
The surface temperature field and dynamical structure of the Almeria–Oran front from simultaneous shipboard and satellite data
A.M. Folkard, P.A. Davies and L. Prieur 205
Gradients of phytoplankton abundance, composition and photosynthetic pigments across the Almeria–Oran front (SW Mediterranean Sea)
M. Fiala, A. Sournia, H. Claustre, J.-C. Marty, L. Prieur and G. Vétion 223

Phytoplankton and primary production characteristics at selected sites in the geostrophic Almeria–Oran front system (SW Mediterranean Sea)
C. Videau, A. Sournia, L. Prieur and M. Fiala 235
Phytoplankton photoadaptation related to some frontal physical processes
H. Claustre, P. Kerhervé, J.-C. Marty and L. Prieur 251
A numerical study of primary production related to vertical turbulent diffusion with special reference to vertical motions of the phytoplankton cells in nutrient and light fields
B. Zakardjian and L. Prieur 267
Zooplankton biomass, feeding and metabolism in a geostrophic frontal area (Almeria–Oran Front, western Mediterranean). Significance to pelagic food webs
D. Thibault, R. Gaudy and J. Le Fèvre 297
Bacterial biomass, heterotrophic production and utilization of dissolved organic matter photosynthetically produced in the Almeria–Oran front
M. Fernández, M. Bianchi and F. Van Wambeke 313
Nitrification rates, nitrite and nitrate distribution in the Almeria–Oran frontal systems (eastern Alboran Sea)
M. Bianchi, P. Morin and P. Le Corre 327
Iatroscan-measured particulate and dissolved lipids in the Almeria–Oran frontal system (Almofront-1, May 1991)
C. Gérin and M. Goutx 343
Distribution of seawater fluorescence and dissolved flavins in the Almeria–Oran front (Alboran Sea, western Mediterranean Sea)
A. Momzikoff, S. Dallot and G. Gondry 361
The significance of frontal processes for vertical particle fluxes: A case study in the Alboran Sea (SW Mediterranean Sea)
R. Peinert and J.-C. Miquel 377
Vertical distribution of cadmium, copper and lead in the eastern Alboran Sea: enrichment of metals in surface waters
R.D. Riso, P. Le Corre, P. Morin and J.-Y. Cabon 391

Editorial/Discussion paper – J.C.J. Nihoul/Comments – A.M. Davies, – J.C. Salomon 401

Particle flux, and composition of sedimenting matter, in the Greenland Sea
E. Bauerfeind, B. Bodungen, K. Arndt and W. Koeve 411
A regional quasigeostrophic circulation model of the western North Atlantic: a model–data comparison
E. Blayo 425
Inertial waves in the Ibiza Channel
J. García Lafuente and N.C. Lucaya 445
Estimating parameters of the oceanic diurnal thermocline using satellite and ship-borne measurements
K.N. Fedorov and A.I. Ginsburg 461
Modelling the ice–ocean–plankton interactions in the Southern Ocean
H. Goosse and J.-H. Hecq 471
